Transcondylar approach
The transcondylar approach to extradural nonneoplastic lesions of the craniovertebral junction, 1

Index

Transoral approach
Pediatric transoral surgery: indications, complications, and long-term outcome, 573
Trauma
Posttraumatic intradiploic meningoencephalocele. Case report, 284
Tremor
Chronic electrical stimulation of the ventralis intermedius nucleus of the thalamus as a treatment of movement disorders, 203
Trigeminal neuralgia
Long-term outcome after operation for trigeminal neuralgia in patients with posterior fossa tumors, 818
Stereotactic radiosurgery for trigeminal neuralgia: a multiinstitutional study using the gamma unit, 940
A tentorial sling in microvascular decompression for trigeminal neuralgia. Technical note, 127
Trigeminal evoked potential-monitored thermorhizotomy: a novel approach for relief of trigeminal pain, 929
Trigeminal neuralgia and hemifacial spasm as false localizing signs in cases with a contralateral mass of the posterior cranial fossa. Report of three cases, 1067
Tumor, *see* specific tumors and sites
Pott's puffy tumor: the forgotten entity. Case report, 110
Tumor recurrence
Significance of proliferating cell nuclear antigen in predicting recurrence of intracranial meningioma, 85
Tumor suppressor gene
Molecular genetic investigation of the neurofibromatosis type 2 tumor suppressor gene in sporadic meningioma, 847

U-89678
Protective effects of tirilazad mesylate and metabolite U-89678 against blood-brain barrier damage after subarachnoid hemorrhage and lipid peroxidative neuronal injury, 229
Ultrasound
Color transcranial "power" Doppler ultrasound of intracranial aneurysms, 459
Intraoperative ultrasound for monitoring anterior cervical vertebrectomy. Technical note, 702
Relationship between transcranial Doppler-determined pulsatility index and cerebrovascular resistance: an experimental study, 79
Use of intraoperative ultrasound for localizing tumors and determining the extent of resection: a comparative study with magnetic resonance imaging, 737
Ultrastructural study
Recurrent anaplastic ganglioma: pathological characterization of tumor cells. Case report, 1055

Vagus nerve
Delayed glossopharyngeal and vagus nerve paralysis following occipital condyle fracture. Case report, 522
Vasospasm
Effects of a hydroxyl radical scavenger on delayed ischemic neurological deficits following aneurysmal subarachnoid hemorrhage: results of a multicenter, placebo-controlled double-blind trial, 792
Efficacy of prophylactic nimodipine for delayed ischemic deficit after subarachnoid hemorrhage: a metaanalysis, 405
Loss of nitric oxide synthase immunoreactivity in cerebral vasospasm, 648
Paradoxical aggravation of vasospasm with papaverine infusion following aneurysmal subarachnoid hemorrhage. Case report, 690
Prevention of cerebrovasospasm following subarachnoid hemorrhage in rabbits by the platelet-activating factor antagonist, E5880, 826
Prevention of subarachnoid hemorrhage-induced cerebral vasospasm by oral administration of endothelin receptor antagonists, 503
Traumatic subarachnoid hemorrhage as a predictable indicator of delayed ischemic symptoms, 762
Venous drainage
Lessons from a case of kleeblattschädel: Addendum. Letter, 895
Surgical interruption of leptomeningeal drainage as treatment for intracranial dural arteriovenous fistulas without dural sinus drainage, 810
Venous oxygen saturation
Carotid-cavernous fistula and jugular venous oxygen saturation. Letters, 713
Ventral root
Reinnervation of avulsed and reimplanted ventral rootlets in the cervical spinal cord of the cat, 234
Ventralis intermedius
Chronic electrical stimulation of the ventralis intermedius nucleus of the thalamus as a treatment of movement disorders, 203
Ventriculoatrial shunt
Complications of a ventriculoatrial shunt necessitating thoracic surgery. Case illustration, 709
A new method for inserting the atrial end of a ventriculoatrial shunt. Technical note, 705
Ventriculoperitoneal shunt
Effects of prednisone on ventriculoperitoneal shunt function in hydrocephalus secondary to cysticercosis: a preliminary study, 629
A new method for inserting the atrial end of a ventriculoatrial shunt. Technical note, 705
Risks in using siphon-reducing devices in adult patients with normal-pressure hydrocephalus: bench test investigations with Delta valves, 634
The significance of bacteriologically positive ventriculoperitoneal shunt components in the absence of other signs of shunt infection, 617
Vertebral artery
Vertebral artery stenting following percutaneous transluminal angioplasty. Technical note, 883
Vertebrectomy
Anterior decompression and stabilization using a microsurgical endoscopic technique for metastatic tumors of the thoracic spine, 565
Intraoperative ultrasound for monitoring anterior cervical vertebrectomy. Technical note, 702
Villonodular synovitis
Pigmented villonodular synovitis of the spine: a clinical, radiological, and morphological study of 12 cases, 592
Visual pathway
Stereotactic radiosurgery for postgeniculate visual pathway arteriovenous malformations, 437
Volumetric assessment
Age-related changes in intracranial compartment volumes in normal adults assessed by magnetic resonance imaging, 982
Growth of meningiomas. Letters, 150
Intracranial compartment volumes in patients with enlarged ventricles assessed by magnetic resonance-based image processing, 972
von Hippel-Lindau disease
Symptomatic intrasellar hemangioblastoma in a child treated with subtotal resection and adjuvant radiosurgery. Case report, 1046

War wound
Traumatic aneurysms and arteriovenous fistulas of intracranial vessels associated with penetrating head injuries occurring during war: principles and pitfalls in diagnosis and management, 769
